

Hi Neighbors,

Hope everyone is enjoying their summer! A few important reminders to help keep our pool area clean, safe, and enjoyable for everyone:

- **Please clean up after yourselves.** We've noticed trash being left around the pool—kindly dispose of all items in the proper receptacles before leaving.
- **Check the lost-and-found.** Items are starting to pile up. If you're missing anything, please take a moment to look through the designated area.
- **Ensure the gate fully closes behind you.** Occasionally, the magnet doesn't engage if the gate swings shut too quickly. Please double-check that it latches securely when entering or exiting.

Additionally, maintaining proper **water chemistry is critical for everyone's safety**. Our lifeguards and on-site pool management team are responsible for monitoring and maintaining safe conditions at all times. They are authorized to temporarily close the pool when needed to rebalance chemicals—this is normal and a necessary part of safe pool operations.

As board members, we aren't always able to communicate every closure in real time, so we appreciate your help in **sharing updates with neighbors** when you're aware of temporary closures. These are typically short in duration and done in the interest of safety.

Thank you for your cooperation and understanding, and for doing your part to keep our pool a great space for the community.

Regards,  
HOA Board – Pool Committee
